Physiological scores: Logistic Organ Dysfunction System score, 850  
Plasma substitutes: polygeline, 768  
Point-of-care testing: activated partial thromoplastin time; coagulation disorders; international normalised ratio, 760  
Population: geriatric, 108  
Position: head-down, 1181  
Position: Trendelenburg, 980  
Postoperative pain: patient-controlled analgesia, 520  
Pregnancy, 43  
Premedication: dexmedetomidine, 408  
Premedication: oral midazolam, 991  
Pre-operative care: pre-operative optimisation; elective surgery, 988  
Prostate: transurethral resection, 461
- Receptors, 953  
Receptors: alpha-2, 408
- Recovery, 514  
Renal function: critical care, 670  
Respiratory failure: mechanical ventilation, 124  
Resuscitation: training, 357
- Scoliosis: corrective surgery, 235  
Sedation, 476  
Sedation: propofol; midazolam, 836  
Sedatives: propofol; midazolam, 4  
Sevoflurane, 613  
Sleep apnoea syndrome: pre-operative differentiation, 424  
Spectral heart rate variability: cardiac autonomic dysfunction, 424  
Spondylitis: discitis  
Status epilepticus: treatment; complications, 648  
Stress disorders: post-traumatic; diagnosis, 9  
Subdural space, 168  
Surgery, 684  
Surgery: obstetric: Caesarean section, 794  
Surgery: ambulatory, 1112  
Surgery: brain, 465  
Surgery: bronchoscopy, 576  
Surgery: Caesarean section, 43, 790, 1051  
Surgery: cardiovascular, 24, 667, 733, 953, 1163  
Surgery: day case; gynaecological, 171  
Surgery: dental, 476  
Surgery: hepatic resection, 520  
Surgery: laparoscopy, 1041  
Surgery: laparoscopy; gynaecological, 174  
Surgery: ophthalmologic, 638  
Surgery: orthopaedic, 571, 1189  
Surgery: otolaryngological, 1045  
Surgery: thoracic, 933, 940  
Surgery: urologic, 1103  
Surgery: vascular, 168  
Surgical equipment: surgical instruments; ultrasonics, 1045  
Sympathetic nervous system: pharmacology; dopamine, 953  
Sympathetic nervous system:  $\beta$  adrenergic antagonists; esmolol, 319
- Thromboembolism: heparin, 855  
Thromboprophylaxis, 781  
Thrombosis: deep venous, 781  
Toxicity, 1178  
Tracheostomy: percutaneous; dilatational; complications, 859  
Transfusion: blood, 568  
Transoesophageal echocardiography: acoustic quantification, 623  
Transportation of patients, 882  
Traumatic brain injury, 781  
Treatment: boron neutron capture therapy, 665  
Veins: jugular; cannulation, 24  
Ventilation: artificial, 756  
Ventilation: diaphragm, 352  
Ventilatory failure: non-invasive ventilation, 235  
Vomiting: anti-emetics, 927  
Vomiting: nausea, 60
- Waveform: arterial; derived, 55
